Targeted Search Advanced Search Page

Prompt

Deprecated - Targeted Search now uses the new and sophisticated [Search Panel](#).

Definition

This was the page to which users were directed go to when they launched a search. This has been replaced with the more fully-featured [Search Panel](#).

Info

This page is not the same thing as [Confluence's advanced search page](#). These two pages may look similar but it is only on the Targeted Search advanced search page that users can view and use custom filter groups and filters.
