

Solution Discovery

Solution Discovery

Translate your high-level goals into a concrete solution design.

Highlights

BrikIt's Solution Discovery brings our lead visual, information, and technology designers together with your project leads and key stakeholders to lay out your digital workspace solution.

[Talk to Us About Solution Discovery](#)

Through a fast-moving, five-step process, together we'll tackle your high-level goals through our purpose-driven matrix of digital workspace possibilities and information architecture concerns.

The result:

- a clear plan of attack for building your solution
- concrete estimates for effort, skills needed, and timelines

Definition

Five Easy Steps

1

- High-level goals
- Matrix of possibilities
- Information architecture concerns
- Past challenges and special needs

Feedback

Possibilities?

Approach?
