# Content Query Macro Parameters and Key

## Prompt

Content Query macro key and configuration options.

## Key Title

Key

## Key

content-query

## Reference

| Parameter                | Description   | Expected Input                                      | Example Value(s)   |
|--------------------------|---|---|--|
| Content Type ("Of type") | Defines one or more types of content to include in search results.  | Drop-down menu selection                            | <ul style="list-style-type: none"><li>• Page</li><li>• Blog</li><li>• Comment</li><li>• Attachment</li><li>• Calendars</li><li>• Space Calendars</li></ul>   |
| Add a Filter             | Narrows the search results according to the specified filters and values.   | Drop-down menu selection (filter type) filter value | <ul style="list-style-type: none"><li>• With ancestor Current page</li><li>• Contributor bob</li><li>• Created Last 24 hours</li><li>• Creator dcooper</li><li>• Label announcements</li><li>• Last modified Last week</li><li>• Mentioning user bob</li><li>• With parent HR Home</li><li>• In space HR</li><li>• Including text portland</li><li>• With title PTO Policy</li></ul> |
| Sort By                  | Sorts the list by title, creation date, or modified date. <a href="#">SEARCH-591</a>  | Drop-down menu selection                            | <ul style="list-style-type: none"><li>• title</li><li>• created</li><li>• modified</li><li>• [no selection]</li></ul>  |
| Reverse Sort             | Toggles between sorting the list in descending or ascending order.  | Check mark  |  |
| Maximum Results          | Limits the number of total search results to the specified number. Defaults to 15.  | Positive integer                                    | <ul style="list-style-type: none"><li>• 10</li></ul>   |
| Title                    | Displays a heading above the list of returned content.  | Text string   | <ul style="list-style-type: none"><li>• News and Announcements</li><li>• Training Resources</li></ul>  |
| Display                  | Choose between a list, table, or rich links. Note: table display is only supported when Query After Page Load is selected.  | Drop-down menu selection                            |  |
| Use Full Size Images     | Toggles the use of thumbnail images in rich links. Enable to always display full-sized images, which may impact performance. Has no effect unless Rich Links display is selected. | Check mark  |  |

|                           |   |                          |   |
|---------------------------|---|--------------------------|---|
| Align                     | Aligns the search results horizontally on the page or block.  | Drop-down menu selection | <ul style="list-style-type: none"> <li>• left</li> <li>• right</li> <li>• center</li> </ul>   |
| Show Icons                | Toggles the visibility of icons indicating the content type of each returned item.<br>Applicable only when Display Rich Links option is not selected.   | Check mark               |   |
| Show Labels               | Toggles the visibility of labels attached to each returned item.<br>Applicable only when Display Rich Links option is not selected.   | Check mark               |   |
| Show Space Names          | Toggles the visibility of space names associated with each returned item.<br>Applicable only when Display Rich Links option is not selected.  | Check mark               |   |
| Composed CQL              | Defines a hand-coded CQL query which overrides the filters specified above.<br><br>Omit the ORDER BY keyword and clause when composing your query as this will already be automatically appended to your query.<br><br>Note that this macro supports searching against spaces by specified criteria. See example query. | CQL query                | <ul style="list-style-type: none"> <li>• <code>type in ("page") and (space in categorySpaces ("human-resources") or label in ("human-resources"))</code></li> </ul> |
| Display Rich Links        | Toggles the use of social media-like rich links instead of simple text links.<br><br><b>Note:</b> <i>deprecated</i> in version 3.3+, replaced with "Display" parameter, noted above.  | Check mark               | <ul style="list-style-type: none"> <li>• list</li> <li>• table</li> <li>• rich links</li> </ul>   |
| Load More Results         | Defines how (user scrolling vs. button) and whether to load more search results if the initial number of returned items exceeds the value of the Maximum Results parameter.<br><br>Applies only when Display Rich Links option is on.   | Drop-down menu selection | <ul style="list-style-type: none"> <li>• scroll</li> <li>• button</li> <li>• off</li> </ul>   |
| Load More Button Text     | Call-to-action text when "button" is selected for the Load More Results parameter. (Default: "Load More")<br><br>Applies only when Display Rich Links option is on.   | Call-to-action text      | <ul style="list-style-type: none"> <li>• See More</li> </ul>  |
| Hide Rich Links Site Icon | DEPRECATED: Use Block settings.<br><br>Toggles the appearance of the small site or space icon in rich links.  | Check mark               |   |
| Hide Rich Links Site Name | DEPRECATED: Use Block settings.<br><br>Toggles the appearance of the site URL or space name in rich links.  | Check mark               |   |
