Blocks.mobile.phone

Prompt

Theme Press breaks up complex pages into separately editable, visually designable blocks.

Definition

Blocks are the smallest unit that your content inhabits on a Theme Press page.

- One or more blocks exist in a [column](#).
- One or more columns live within a [layer](#).

Blocks can:

- Hold content that can be edited
- Contain [macros](#)
- Be formatted
- Be styled
- Have viewing restrictions placed on them
- Be automatically displayed (included) on other pages
