

Confluence Administration Menu

Confluence Administration Menu

Prompt

Menu in the Confluence Header with links to configuration, user, and app management options.

Definition

The Confluence Administration Menu is a convenient drop-down list of links to back-end configuration pages. It is toggled by clicking the gear icon

 Unknown Attachment

located in the [Confluence Header](#). Once clicked, the menu of links include:

- General configuration
- User management
- Manage apps (or "Add-ons" in previous versions)

The Confluence Administration Menu is only visible to users with the [System Administrator](#) or [Confluence Administrator](#) role. Users without these roles, including anonymous users, do not have access.
