

Installing Blueprint Maker

Installing Blueprint Maker

Prompt

Installing Blueprint Maker through the Universal Plugin Manager

Steps

Install Blueprint Maker

- Follow the installation steps on [Installing and Uninstalling Apps](#)
 - (For step 4, type `Blueprint Maker` in the app search box)

Note

Good to Know

- [Installation of Atlassian Confluence](#) is a requirement for Blueprint Maker installation
- Check the [Blueprint Maker Releases](#) page for compatibility information and download links
