Installing Targeted Search

Relates To

TARGETED SEARCH

Installing Targeted Search

Prompt

Installing Targeted Search through the Universal Plugin Manager

Steps

Install Targeted Search

- Follow the installation steps on Installing and Uninstalling Apps
    - (For step 4, type `Targeted Search` in the app search box)

Set Search Result Styling

By default, Rich Link type results are enabled when Targeted Search is installed.

To disable them:

- navigate to Targeted Search administration

Confluence Administration Targeted Search Search Filters

- click the Link Icon, second from the left, in the upper right of the page

> ⊘   Rich Link results were introduced in Targeted Search v. 1.2

Note

> ⚠ **Good to Know**
>
> - Installation of Atlassian Confluence is a requirement for Targeted Search installation
> - Compatibility information and download links are available on the Targeted Search Releases page
