Reference

Parameter	Description	Expected Input	Example Value(s)
Content Container Width	Defines the width of content containers for all layers in this layout.	Pixels or percentage	• 1100px • 95%
Breadcrumbs	Defines the visibility and location of breadcrumbs: • layer - Combines breadcrumbs with the page title. (If page title is hidden, breadcrumbs will appear in a layer where the page title would be.) • header - Places breadcrumbs in the Theme Press header. • hide - Hides breadcrumbs altogether.	Visibility /placement value	• layer • header • hide
Metadata Banner	Defines the visibility and location of icons related to page restrictions and attachments: • layer - Combines icons with the breadcrumbs. (If breadcrumbs are hidden, icons are combined with the page title. If page title is also hidden, icons do not appear anywhere.) • integrated - Combines icons with the page title. (If page title is hidden, icons do not appear anywhere.) • hide - Hides page restriction and attachment icons.	Visibility /placement value	• layer • integrated • hide
Page Title	Defines the visibility and location of the page title: • layer - Places page title in its own title layer, above all other content layers. • integrated - Places page title at the top of the first content layer (main column). • hide - Hides page title.	Visibility /placement value	• layer • integrated • hide
Page Info	Defines the visibility and location of page creator/editor/date metadata: • layer - Combines page creator/editor/date info with page title. (If page title is hidden, this metadata does not appear anywhere.) • hide - Hides page creator/editor/date info.	Visibility /placement value	• layer • hide
Likes and Labels	Defines the visibility and location of a page's likes and labels: • layer - Places likes and labels in their own layer, below all other content layers. (If comments are also in their own layer, likes and labels will appear above comments.) • integrated - Places likes and labels at the bottom of the last content layer (main column). (If comments are also in the main column, likes and labels will appear above comments.) • hide - Hides likes and labels.	Visibility /placement value	• layer • integrated • hide
Comments	Defines the visibility and location of page comments: • layer - Places comments in their own layer, below all other content layers. • integrated - Places comments at the bottom of the last content layer (main column). • hide - Hides comments.	Visibility /placement value	• layer • integrated • hide
Presentation Mode	Toggles between showing the page in normal view or presentation view. In presentation view. header, footer, and all controls are hidden and keyboard page navigation is enabled.	True or false	• true • false
