content-query

Reference

Parameter	Description	Expected Input	Example Value(s)
Content Type ("Of type")	Defines one or more types of content to include in search results.	Drop-down menu selection	`Page` `Blog` `Comment` `Attachment` `Calendars` `Space Calendars`
Add a Filter	Narrows the search results according to the specified filters and values.	Drop-down menu selection (filter type) filter value	`With ancestor Current page` `Contributor  bob` `Created  Last 24 hours` `Creator  dcooper` `Label announcements` `Last modified Last week` `Mentioning user bob` `With parent  HR Home` `In space  HR` `Including text portland` `With title  PTO Policy`
Sort By	Sorts the list by title, creation date, or modified date. SEARCH-591	Drop-down menu selection	`title` `created` `modified` `[no selection]`
Reverse Sort	Toggles between sorting the list in descending or ascending order.	Check mark	
Maximum Results	Limits the number of total search results to the specified number. Defaults to 15.	Positive integer	`10`
Title	Displays a heading above the list of returned content.	Text string	`News and Announcements` `Training Resources`
Display	Choose between a list, table, or rich links. Note: table display is only supported when Query After Page Load is selected.	Drop-down menu selection	
Use Full Size Images	Toggles the use of thumbnail images in rich links. Enable to always display full-sized images, which may impact performance. Has no effect unless Rich Links display is selected.	Check mark	

Align	Aligns the search results horizontally on the page or block.	Drop-down menu selection	`left` `right` `center`
Show Icons	Toggles the visibility of icons indicating the content type of each returned item. Applicable only when Display Rich Links option is not selected.	Check mark	
Show Labels	Toggles the visibility of labels attached to each returned item. Applicable only when Display Rich Links option is not selected.	Check mark	
Show Space Names	Toggles the visibility of space names associated with each returned item. Applicable only when Display Rich Links option is not selected.	Check mark	
Composed CQL	Defines a hand-coded CQL query which overrides the filters specified above. Omit the ORDER BY keyword and clause when composing your query as this will already be automatically appended to your query. Note that this macro supports searching against spaces by specified criteria. See example query.	CQL query	`type in ("page") and (space in categorySpaces ("human-resources") or label in ("human-resources"))`
Display Rich Links	Toggles the use of social media-like rich links instead of simple text links. **Note**: *deprecated* in version 3.3+, replaced with "Display" parameter, noted above.	Check mark	`list` `table` `rich links`
Load More Results	Defines how (user scrolling vs. button) and whether to load more search results if the initial number of returned items exceeds the value of the Maximum Results parameter. Applies only when Display Rich Links option is on.	Drop-down menu selection	`scroll` `button` `off`
Load More Button Text	Call-to-action text when "button" is selected for the Load More Results parameter. (Default: "Load More") Applies only when Display Rich Links option is on.	Call-to-action text	`See More`
Hide Rich Links Site Icon	DEPRECATED: Use Block settings. Toggles the appearance of the small site or space icon in rich links.	Check mark	
Hide Rich Links Site Name	DEPRECATED: Use Block settings. Toggles the appearance of the site URL or space name in rich links.	Check mark
