Reference

Parameter	Description	Expected Input	Example Value(s)
Include Content	A list of labels associated with content to include on the page. Leave blank to load all site content.	Page, blog post, or attachment labels; comma-separated if more than one	• `events, featured` • `[no selection]`
Search Against Labels	Defines whether to load content that contains ANY of the specified labels or ALL specified labels.	Drop-down menu selection	• `any` • `all`
Include Pages	Toggles the visibility/inclusion of page content.	Check mark	
Include Blog Posts	Toggles the visibility/inclusion of blog post content.	Check mark	
Include Files and Images	Toggles the visibility/inclusion of file and image content (page attachments).	Check mark	
Include Social Activity	Toggles the visibility/inclusion of likes, comments, and sharing activity related to included pages, blog posts, files, or images.	Check mark	
Filter By	Defines a type of space from which to show content. (Selecting "all global spaces" will include active and archived site spaces while "all spaces" will fold in personal spaces as well.) When selecting "specified categories" or "specified keys", use in conjunction with the Specify Spaces parameter.	Drop-down menu selection	• `all spaces` • `all global spaces` • `specified categories` • `specified keys`
Specify Spaces	Defines criteria for which spaces to include when "specified categories" or "specified keys" is selected for the Filter By parameter. Leaving this blank when "specified keys" is selected for the Filter By parameter will limit the results to the current space only.	Space labels or keys; case-sensitive; comma-separated if more than one	• `HR` • `asia, north_america` • `[no selection]`
Hide Content Type Icons	Toggles the display of content type icons in the tiles.	Check mark	
Hide Attribution	Toggles the display of author details at the bottom of the tiles.	Check mark	
Hide Social Buttons	Toggles the display of the like, share, and comment buttons on the tiles.	Check mark	

Tile Width	Defines the pixel width of each tile. (Default: 293) Enter 0 for full-width.	Integer	- 0 - 300
Maximum Height of Content	Defines the maximum pixel height of the content area inside each tile. (Default: 520)	Integer	- 240
