Release Time

Prompt

The beginning of the [scheduled window](#).

Definition

The 'Release Time' for a [scheduled page](#) is the date and time when a page has its page restrictions automatically updated so that persons with view permissions may view the page. This [releases](#) the page to 'everyone' (individuals and groups with view permissions in the space).

Adding a 'Release Time' when [scheduling a page](#) can be tantamount to publishing the page, and therefore a strategic way to control the visibility of your content across a site.
