Undo Approve

Prompt

An option available to [reviewers](#) after approving a [workflow step](#). It reverses the [approval](#).

Definition

Clicking the "Undo Approve" button reverses your [approval](#) of a [workflow step](#). Doing so returns the workflow to you as a [reviewer](#) and removes any comment you may have made during your previous approval.

The 'Undo Approve' action is allowed until another [reviewer](#) in the current workflow step approves or [returns](#) the page.
