CONTENT FLOW

Hide Time

Prompt

The end of the [scheduled window](#).

Definition

The 'Hide Time' for a [scheduled page](#) is the date and time when a page has its page restrictions automatically updated so that only persons with edit permissions may view the page. This effectively [hides](#) the page from users with view-only permissions.

Adding a 'Hide Time' when [scheduling a page](#) is a strategic way to control the visibility of content across your site.
