Remote Work and Brikit

15 years of experience with work from home solutions

Brikit helps fast-growing and Fortune 500 companies gear up for remote work. As a 100% work-from-home company, Brikit understands the remote work challenges you're facing. We'd like to share proven tools and strategies to work from home effectively and keep your workforce aligned, happy, and productive.

Tools - Desktop

Tools

We start with [the Brikit platform](#), building on [Atlassian Confluence](#) and [Jira](#) to create an intuitive and powerful remote work tool foundation. Then add reliable video/voice conferencing and screen sharing (such as [Zoom](#) or [BlueJeans](#)) and a flexible chat platform that integrates with your other tools (we're huge fans of [Slack](#)).

Solutions - Desktop

Solutions

Becoming a work-from-home enterprise means overcoming the challenges posed by a remote workforce. Here are the solutions most commonly tackled by our customers:

Solutions - Mobile

Visual - Desktop

project management

We developed a sophisticated project management workflow based on Atlassian and Brikit tools that can handle the most complex projects and bring everyone on the same page.

whiteboard brainstorming

Talk to us about alternative ways to get ideas flowing, even when you're not all in the same room and you don't have a whiteboard. Our brainstorm solutions cover tools and practices you can use to replace the whiteboard today.

remote meetings

Running meetings remotely cannot be done in the same way as onsite meetings. Learn how you can prepare remote meetings to make the most of your time and how to create action items that participants will follow up on.

team alignment and internal documentation

Knowledge is key and even more so when you're working from home. Document your expectations, project goals, processes and culture meticulously to get everyone aligned.

Visual - Desktop

change management

Change is hard and has always been. Managing change initiatives remotely can be even more daunting. We have developed tools and practices that have empowered our team for over a decade

onboarding

One of the most challenging aspects of remote work. Learn how you can use Confluence and other Atlassian apps to make sure every new employee has a smooth onboarding experience.

client communication and management

Working with clients is our bread and butter and we rely heavily on tools to streamline our client projects and ensure a mutual understanding of project status, goals, and timeline.

digital workplaces

Learn how you can do all of the above, and more, with digital workplace solutions that connect your people to align, learn, contribute, and get work done.
