# Enabling and Disabling Rich Links in the Search Panel

## Prompt

With Theme Press installed, configure search results to show as rich links, or not.

## Outcome

Search results are presented as stylized [rich links](#) when Theme Press is installed. Use this guide to disable or enable the display of results as rich links.

## Steps

### Navigate to the Targeted Search Configuration Page

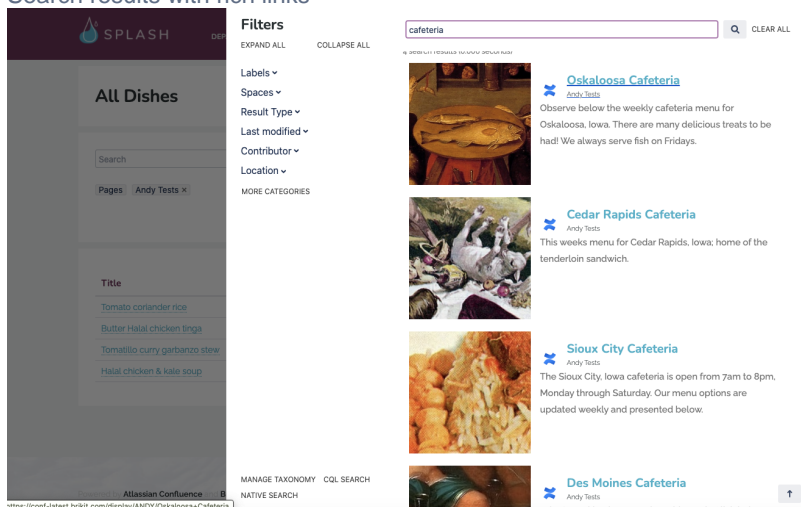

Confluence Gear Icon  > General Configuration > "Brikit Targeted Search" > Configure

### Edit the Enable/Disable Rich Links option

Click the pencil icon to edit the option. You will be prompted to click OK to the change.

## Note

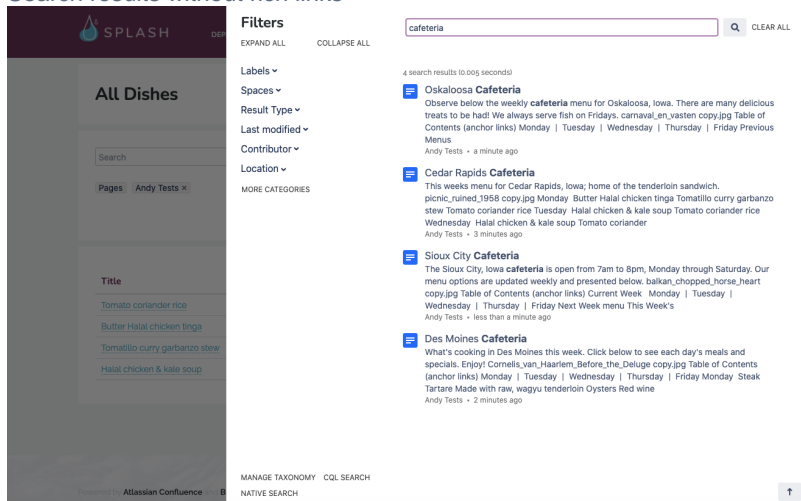

### Search results with rich links

This screenshot shows the Confluence search interface with the search term "cafeteria". The results are displayed as rich links, each featuring a thumbnail image, a title, and a brief description. The results include:

- Oskaloosa Cafeteria**: Observe below the weekly cafeteria menu for Oskaloosa, Iowa. There are many delicious treats to be had! We always serve fish on Fridays.
- Cedar Rapids Cafeteria**: This weeks menu for Cedar Rapids, Iowa; home of the tenderloin sandwich.
- Sioux City Cafeteria**: The Sioux City, Iowa cafeteria is open from 7am to 8pm, Monday through Saturday. Our menu options are updated weekly and presented below.
- Des Moines Cafeteria**: What's cooking in Des Moines this week. Click below to see each day's meals and specials. Enjoy!
