

Setting a Space Owner

Requires

CONTENT FLOW

Setting a Space Owner

Prompt

Use Brikit Content Flow to identify a user as the Space Owner.

Outcome

Assign a Confluence user as the [Space Owner](#) to a Confluence space.

Steps

Open the [Confluence Sidebar](#) and click "Space Tools"

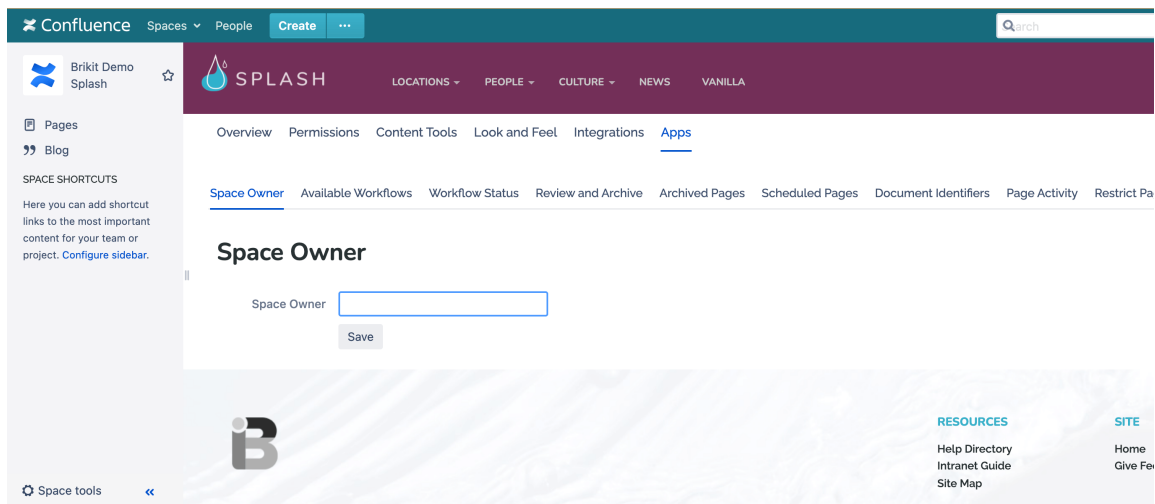

You must be a [space](#) or [system administrator](#) to perform this action. If using Brikit Theme Press as well, [toggle open the Confluence menus](#) to access the Sidebar.

Select Overview

Navigate to the "Apps" tab

Click the "Space Owner" sub-tab

Depending on what apps are installed, this tab may already be open by default.

Enter the Space Owner

The Space Owner must be a Confluence user.

Click Save

Note

Tip

After you set the Space Owner, consider [using the Page Metadata Macro to display this information](#) on your space home page or contact page.
