Featured Improvements

Pick list field type

Blueprint fields can specify a pulldown list of options. Check out our How-To on [using a picklist of options in a Blueprint](#).

Page label field type

Blueprint fields can [apply page labels to created pages](#).

Briket Targeted Search filter group field type

Blueprint fields can [specify a filter group to populate a list field and apply labels to created pages](#). Options for using the Confluence label, filter group name, and [various formats for lists](#) when used for substitution values.

Briket Content Flow workflows selection

Blueprints can [apply a specific workflow to every page created](#), overriding the default workflow.

Improved logging

Reduced noise and improved error logging.
