Featured Improvements

Duplicate filter names

Multiple filters can use the same human-readable display string. Learn about [configuring and using duplicate Search Filter names](#).

Interactive Search macro option for wildcard search

New parameter allows [partial word searches](#) without using special syntax.

Brikit Content Flow document identifier display

Search results add [document identifiers](#) to titles.

Brikit Theme Press integration

Filter group filters/labels can be [displayed in rich links](#).

Brikit Blueprint Maker integration

Blueprints can specify [pick lists populated by filter groups](#), and use human-readable filter names for substitution values.

Improved logging

Reduced noise and improved error logging.
