Relates To

THEME PRESS

Theme Press 3.4

Prompt

New features, performance improvements, and bug fixes

Reference

Version	3.4
Release Date	2022-08-03
Compatibility with Confluence Server and Data Center	6.13 through 7.19
Download Link	download

Featured Improvements

Google Analytics G4 support

Every theme can be configured to track visits to your Confluence site with the new Google Analytics G4 tag.

Rich links performance optimizations and improved caching

Improvements support significantly faster rich links display and more complex information designs.

Performance optimizations for large page or many page attachments

Theme Press Designer pop-ups now open instantly.

More Targeted Search

The Brikit Targeted Search panel is now available on user profile and Confluence Questions screens.

More logging improvements

Reduced noise and improved error logging.

Display improvements

Smoother page display and bug fixes enhance the viewing experience for all users.

> ⚠️ **Targeted Search Upgrade Required**
>
> - If installed, Brikit Targeted Search must be upgraded to version 3.3 to be compatible with Theme Press 3.4
