Confluence compatibility

Please note that Calendar Integrations 2.0 only supports Confluence 8.0 and later.

If you are running Confluence 7 or earlier, please use the latest Calendar Integrations 1.2.x software. We will continue to maintain both Calendar Integrations and 1.2 and 2.0.
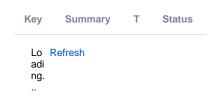

Installing on Confluence 8.x

When upgrading to Calendar Integrations 2.0, it is highly recommended that you uninstall your existing Brikit products, and then clear the Confluence plugin cache before installing Calendar Integrations 2.0.

Compatibility with other Brikit products

Your other installed Brikit products must be upgraded at the same time as Calendar Integrations, or they may cease to function.
