### Confluence compatibility

Please note that Calendar Integrations 2.0 only supports Confluence 8.0 and later.

If you are running Confluence 7 or earlier, please use the latest Calendar Integrations 1.2.x software. We will continue to maintain both Calendar Integrations and 1.2 and 2.0.

### Installing on Confluence 8.x

When upgrading to Calendar Integrations 2.0, it is highly recommended that you uninstall your existing BrikIt products, and then [clear the Confluence plugin cache](#) before installing Calendar Integrations 2.0.

### Compatibility with other BrikIt products

Your other installed BrikIt products must be upgraded at the same time as Calendar Integrations, or they may cease to function.
